SUPPLEMENTARY INFORMATION:

Background: On December 16, 2015, FMCSA published a final rule titled “Electronic Logging Devices and Hours of Service Supporting Documents,” (80 FR 78292) that established minimum performance and design standards for hours-of-service (HOS) ELDs; requirements for the mandatory use of these devices by drivers currently required to prepare HOS records of duty status (RODS); requirements concerning HOS supporting documents; and measures to address concerns about harassment resulting from the mandatory use of ELDs.

To ensure consistency among ELD vendors and devices, detailed functional specifications were published as part of the December 2015 final rule. Each ELD vendor developing an ELD technology must register online at a secure FMCSA website where the ELD provider can securely certify that its ELD is compliant with the functional specifications. Each ELD vendor must certify that each ELD model and version has been sufficiently tested to meet the functional requirements in the rule under the conditions in which the ELD would be used.

ELD vendors must self-certify and register their devices with FMCSA online via Form MCSA-5893, "Electronic Logging Device (ELD) Vendor Registration and Certification." FMCSA expects 100% of respondents to submit their information electronically. Once completed, FMCSA issues a unique identification number that the ELD vendor will embed in their device(s). FMCSA maintains a list on its Web site of the current ELD vendors and devices that have been certified (by the vendors) to meet the functional specifications. The information is necessary for fleets and drivers to easily find a compliant ELD for their use in complying with the FMCSA regulation requiring the use of ELDs.
